SUMMARY

Results-driven Web Developer with expertise in full-stack technologies including React, Node.js, MongoDB, PHP, and WordPress. Proven track record of developing scalable applications, optimizing website performance, and delivering custom client solutions. Adept at bridging the gap between robust backend architecture and seamless frontend user experiences.

EXPERIENCE

VTS Infotech

Mar. 2026 – Present

Web Developer

- Developing and maintaining dynamic websites using PHP, ensuring robust backend functionality and seamless user experiences.
- Building and customizing WordPress themes and plugins to meet specific client requirements.
- Managing client communications, gathering project specifications, and providing regular updates on development progress.

GEMA Education pvt ltd

Dec. 2025 – Mar. 2026

WordPress Developer

- Designed and developed responsive WordPress websites tailored to the educational sector.
- Performed routine site maintenance, including plugin updates, security checks, and performance optimization.
- Troubleshoot and resolved technical issues promptly to ensure minimal downtime and optimal user engagement.

ABN Consultants pvt. ltd.

July 2025 – Present

Web Developer (Freelance)

India

- Maintained and updated multiple WordPress websites, including ABN Consultants, Grassroots Global Early Years, and Bishop Scott Girls' School.
- Managed website SEO and analytics, leveraging insights to improve online visibility and user engagement.
- Implemented content updates and website modifications to ensure optimal performance and user experience.

SKILLS

Expertise : JavaScript, HTML, CSS, ReactJs, NextJs, TypeScript, Three.js, Node.js, MySQL, MongoDB, WordPress, Python, PHP

PROJECTS

ShopEase | *React, TypeScript, Node.js, Express, MongoDB* | [Live Link](#)

- Built a modern full-stack e-commerce template with a focus on UX, responsiveness, security, and maintainable architecture.
- Designed as a starter kit and learning resource for building scalable online stores.

Parkit | [Live Link](#)

- Developed a parking management platform connecting customers seeking real-time bookings to available spots.
- Enabled owners to optimize occupancy and revenue through dynamic pricing.

Nori | *Next.js, TypeScript, MongoDB, Yjs, Hocuspocus* | [Live Link](#)

- Built a real-time collaborative infinite canvas inspired by FigJam and Miro, supporting cards, stickies, drawings, frames, comments, and live collaboration.
- Implemented CRDT-based synchronization using Yjs and Hocuspocus with NextAuth authentication, MongoDB persistence, and multi-user presence.

3D Solar System Simulation | *Three.js* | [Live Link](#)

- Designed an interactive, web-based 3D simulation of the solar system using the Three.js library.

DocEase

- Engineered a comprehensive patient-doctor communication platform that centralizes patient health data from wearables and glucometers.
- Integrated features for doctor review, patient pill reminders, and direct communication for medical advice.

EDUCATION

Techno India University

2022 – 2026

Bachelor of Technology in Computer Science and Engg.

Kolkata, India

Narayana School Andal

2022

Class XII
